GRANTS, CONTRACTS, and GIFTS

1. Co-PI, *Developing Library Strategy for 3D and Virtual Reality Collection Development and Reuse*, IMLS, LG-73-17-0141-17 (\$93,195). A team led by the libraries at Virginia Tech, Indiana University and the University of Oklahoma will organize a series of three national forums. These forums will develop a roadmap and white paper for library adoption of Three Dimensional (3D) and Virtual Reality (VR) services to support new ways of interacting with digital content. The intended audience for this work includes administrators, imaging professionals, and VR project managers at academic libraries, public libraries, and technology-focused library consortia, as well as scientists, humanists, and artists who use 3D and VR applications in their research. The timeframe for this project is December 1, 2017 - November 30, 2018. (*funded*)
2. PI, *Preparing for Environmental Big Data: A Next Generation Digital Repository for Biodiversity Collection Data*, NSF 15-582, Advances in Biological Informatics (ABI) (\$2,000,000 2017-2019). The Indiana University (IU) Libraries is working in partnership with the IU Center for Biological Research Collections (CBRC) to build a next-generation digital repository for biodiversity collection data and images. The prototype uses a Fedora 4 repository with Sufia 7 built on as a Hydra Head to provide an extensible digital repository with rich metadata that meets the Dublin and Darwin Core standards. The goal of this innovation phase is to automatically link these open-source repository software elements to Symbiota and Specify, which are NSF-funded software packages for multi-institutional collaborative projects (such as TCNs) and natural history collection management, respectively. (*not funded*)

3. PI, *The HathiTrust Research Center From the Cloud to the Classroom (C2C)*, NEH Institutes for Advanced Topics in the Digital Humanities (\$259,978, 2016-2018). This institute proposal is a partnership of the HathiTrust Research Center (HTRC) and the Libraries of Indiana University and the University of Michigan. We propose to host two three-day workshops that will educate humanities faculty, staff, and librarians on issues related to the use of large-scale textual research datasets for the purposes of pedagogical instruction in humanities classrooms and pedagogical knowledge for instruction in literature courses. (*not funded*)
4. Co-PI, *Hypershelf: A National Discovery Digital Bookshelf*, IMLS National Leadership Grant (Research) (\$500K, 2016-2018). This research proposal builds on current work (Murdock and Allen, 2015 -- <http://inphodata.cogs.indiana.edu/>) to develop a National Discovery Digital Bookshelf that exploits topic modeling to put full-text discovery first, while avoiding issues of query formulation and keyword indexing. (*not funded*)
5. Co-PI, *An Open-source Personalized Recommendation Platform for National Discovery*, IMLS National Leadership Grant (Project) (\$250K, 2016-2018). This grant intends to bring together a unique team of practitioners, researchers, and technologists to develop an open personal recommendation algorithm, evaluate its applicability to supporting a national recommendation platform through developing proof-of-concept software for open-source discovery layers (Blacklight, VuFind), and suggest an implementation roadmap with a white paper on issues around open recommender system implementation within open discovery. (*not funded*)
6. Sr. Personnel, *SEEDCorn (Sustainable Enabling Environment for Data Collaboration)-Midwest Big Data Regional Innovation Hub*, National Science Foundation (\$1.5M, 2016-2019). This grant will endeavor to harness the power of big data to investigate some of the most pressing issues facing our world in the MidWest region and the state of Indiana. Issues include areas such as water security, data science, smart cities, network science, transportation and patient care. (*funded*)
7. Sr. Personnel, *Digging Deeper, Reaching Further: Libraries Empowering Users to Mine the HathiTrust Digital Library Resources*, Institute of Museum and Library Services-Laura Bush 21st Century Librarian Program (\$398K 2015-2018). This grant will develop a shared curriculum for use in academic libraries for a train-the-trainer series designed to assist librarians in getting started with the tools, services, and related research methodologies of the HathiTrust Research Center (HTRC). (*funded*)
8. Sr. Personnel, *Humanities Collaborations and Research Practices: Exploring Scholarship in the Global Midwest*, The Humanities Without Walls Consortium and the Andrew W. Mellon Foundation (\$100K, 2015-2016). (*funded*)
9. Co-PI, *Exploring the Billions and Billions of Words in the HathiTrust Corpus with Bookworm: HathiTrust + Bookworm Project*, National Endowment for the Humanities (\$324K, 2014-2016). The enhancement and integration of the Bookworm analytical tool with the HathiTrust Digital Library, which holds 3.9 billion pages of digitized materials. Scholars would be able build individual collections of materials to be studied and to discover new textual use patterns across the corpus. (*funded*)
10. Co-PI, *Kuali OLE: Year 4 Build Partnership*. A Partnership funded by The Andrew W. Mellon Foundation (\$882K, January 2014-December 2014). This partnership consists of ten research library partners who are working to build a community based library management system Kuali OLE (Open Library Environment). A formal application partner in the Kuali Foundation, this grant is in its fourth year of funding to build enhancement to the initial Kuali OLE build grant software. This project is being led by Indiana University (OVPIT/UITS/Libraries). (*funded*)

11. Co-PI, CLIR/DLF Data Curation Fellowship Grant, Alfred P. Sloan Foundation (\$600K, July 2012-June 2014). This grant will fund the CLIR/DLF Data Curation Fellowship Recipient to work jointly between the IU Libraries and the IU Data to Insight Center for the 2012-2014 time period. (*funded*)
12. Co-PI, *Kuali OLE: Year 3 Build Partnership*. A Partnership funded by The Andrew W. Mellon Foundation (\$750K, January 2013-December 2013). This partnership consists of nine research library partners who are working to build a community based library management system Kuali OLE (Open Library Environment). A formal application partner in the Kuali Foundation, this grant is a third year enhancement to the initial Kuali OLE build grant. This project is being led by Indiana University (OVPIT/UITs/Libraries). (*funded*)
13. Sr. Personnel, NSF MRI Acquisition: the Data Capacitor – Next Generation (DC-NG), (\$2M, July 2012-Aug 2014). This grant will fund a technical and architectural refresh of the IU Data Capacitor under the NSF Major Research Instrumentation award track. (*not funded*)
14. Co-PI, *HathiTrust Research Center Proposal to Define Non-Consumptive Research for use with the HathiTrust Research Center*, Alfred P. Sloan Foundation (\$600K, July 2011-June 2013). Co-sponsored by Indiana University, the University of Illinois, and the University of Michigan. (*funded*)
15. Co-PI, A HUBzero/Joomla! VIVO Application. VIVO Mini-Grant NIH/NCRR (\$50K, March 2011-Aug 2011). This VIVO mini-grant will add functionality to the open source content management system, Joomla, in order to provide VIVO researcher profile data to Hubzero installations, in particular to the Indiana CTSI Hubzero portal. (*funded*)
16. Co-PI, HathiTrust Research Center: Submitted to University of Michigan HathiTrust Digital Library, (\$5.2M, Sept 2010-Aug 2014). This project is a collaborative research center proposed by Indiana University, the University of Illinois, and the National Center for Supercomputing Applications. The center will focus on making the HathiTrust Digital Library corpus available in new ways for computational research and will support the HathiTrust Digital Library in working directly with researchers who want to utilize this mass-digitization corpus. (*approved*)
17. Co-PI, *SI2-SSI: An Identity Management Infrastructure for HUBzero*, NSF 10-551 (\$1.7M, Jan. 2011-Dec 2014). The HUBzero Consortium seeks a Scientific Software Integration (SSI) award, led by Indiana University, to develop an identity management software cyberinfrastructure as an integral part of the HUBzero platform to serve its existing 25 virtual research communities and future HUB communities. This infrastructure will meet the transformative research and educational goals by creating trusted environment for virtual science organizations supported by HUBs, and creating a platform for individual description and disambiguation so that collaborations can be more easily discovered and research workflows more easily accomplished. (*not funded*)
18. Co-PI, *Bamboo Technology Project*: A Partnership funded by The Andrew W. Mellon Foundation (\$1.1M, Oct. 2010-May 2012). This project is a 10 university collaborative working to build cyberinfrastructure components for digital humanities research. IU is currently involved in the Workspaces and Collection Interoperability working groups, partnering with the University of Wisconsin, the University of California-Berkeley (lead), the University of Illinois, and Northwestern University. (*funded*)
19. Co-PI, *Kuali OLE*: A Partnership funded by The Andrew W. Mellon Foundation (\$2.3M, July 2010-June 2012). This partnership consists of eight research library partners who are working to build a community based library management system Kuali OLE (Open Library Environment). A formal application partner in the Kuali Foundation, Kuali OLE is a two-year software build project funded at a total amount of \$4.8M with matching partner investments. This project is being led by Indiana University (OVPIT/UITs/Libraries). (*funded*)

20. Sr. Personnel, Sustainable Environment through Actionable Data (SEAD). An NSF cooperative agreement funded under Sustainable Digital Data Preservation and Access Network Partners (DataNet) NSF 07-601 (\$20M, Oct. 2011-Sept. 2017) with University of Michigan, Rensselaer Polytechnic Institute, University of Illinois-Urbana Champaign, National Center for Supercomputing Applications, and ICPSR. (*funded*)
21. Co-PI: *VIVO: Enabling National Networking of Scientists*. NIH/NCRR (\$485K, Sept 2009-Aug 2011). VIVO is a project funded by NIH/NCRR under U24 (\$12.3 million) funds to develop and deploy a semantic web based faculty profile system that will enable large-scale multi-disciplinary collaboration across seven universities. (*funded*)
22. Sr. Personnel, *Open Library Environment (OLE) Planning Project*, The Andrew W. Mellon Foundation (\$475K, Aug 2008-July 2009). This international collaboration will lead to the design of a next-generation, open-source library system that is flexible, customizable and nimble enough to meet the changing and complex needs of 21st-century libraries and library users. The goal of the Open Library Environment (OLE) Project is to develop a design document for library automation technology that fits modern library workflows, is built on Service Oriented Architecture, and offers an alternative to commercial Integrated Library System products. (*funded*)
23. Sr. Personnel, *NDIIPP Digital Preservation Archive Development and Demonstration Program*, A Partnership funded by the Library of Congress's National Digital Information Infrastructure and Preservation Program (NDIIPP) (\$1.1M, Sept 2007-Aug 2008). A partnership with the San Diego Supercomputer Center, the UC San Diego Libraries, the National Center for Atmospheric Research, the University of Maryland Institute for Advanced Computer Studies, the Interuniversity Consortium for Political and Social Science Research, and the California Digital Library. (*funded*)
24. Sr. Personnel, *NSF DataNet Cooperative Agreement* (\$20M, July 2007-Jun 2012). An NSF cooperative agreement funded under Sustainable Digital Data Preservation and Access Network Partners (DataNet) NSF 07-601. A partnership with the San Diego Supercomputer Center, the UC San Diego Libraries, the National Center for Atmospheric Research, the University of Maryland Institute for Advanced Computer Studies, the Interuniversity Consortium for Political and Social Science Research, and the California Digital Library. (*not funded*)
25. Co-PI, *MetaArchive of Southern Digital Culture: A Partnership* funded by the Library of Congress's National Digital Information Infrastructure and Preservation Program (NDIIPP) (\$1.3M, Sept 2006-Aug 2009), A Partnership with Emory University, Virginia Tech., Georgia Tech., Auburn University, and the University of Louisville. (*funded*)
26. Co-PI, *Internet2 PIC-SER Campus Trial* (Florida State University): Successful proposal to the University Corporation for Advanced Internet Development to become a campus test site for the Presence and Integrated Communications Server Package. This was accomplished as a joint project with Florida State University Computing Services. (*funded*)
27. Sr. Personnel, Alabama Mosaic Project. An IMLS National Leadership Grant funded (\$500K Sep 2001-Aug 2004) partnership of the academic libraries, museums and archives of Alabama to create an online collection of Alabama historical content online. <http://www.alabamamosaic.org/about.php>. (*funded*)
